PII: S0960-0760(98)00076-4

SUBJECT INDEX

Androgen(s)
and the control of lipid metabolism in human prostate cancer cells, 191
environmental, a review of mimics and antagonists, 143
receptor(s)
N-terminal sequences of the human, in DNA binding and transrepressing functions, 117
Anti-estrogen(s)
stimulation of human endometrial cancer growth by, 181
Apoptosis
glucocorticoid-induced thymocyte, protease-dependent activation of cell shrinkage and DNA degradation, 207

Brain
regulation of gene expression by corticoid hormones in, 253
steroid hormones and their receptors in, 273
the multiple untranslated first exons and promoters system of the estrogen receptor gene in the, of rat and monkey, 281
Breast cancer
progestins and, 225
the pathophysiological role of estrogen receptor variants in human, 175
Breast cancer cells
estrogen regulation of cell cycle progression in, 169
regulation of sex steroid formation by interleukin 4 and interleukin 6 in, 151

Cancer cells
effects of LHRH-analogues on mitogenic signal transduction in, 199
estrogen receptor-mediated inhibition of, invasion and motility, 163
Central nervous system
5α-reductase in the, expression and modes of control, 295

Endometrial cancer
anti-estrogen stimulated human, growth, 181
Estrogen(s)
and coronary artery reactivity in atherosclerotic monkeys, 219
binding protein, isolation and characterization of, which may integrate the plethora of estrogenic actions in non-reproductive organs, 3
environmental, a review of mimics and antagonists, 143
receptor(s)
-mediated inhibition of cancer cell invasion and motility, 163
the multiple untranslated first exons and promoters system of the, gene in brain and peripheral tissues of rat and monkey, 281
the role of phosphorylation in human, function, 101
variants in human breast cancer, 175
regulation of cell cycle progression in breast cancer cells, 169

Gene targeting
analysis of glucocorticoid signalling by, 111
by members of the steroid/nuclear receptor superfamily, 125
Glial cells
steroid hormone receptors and steroid action in rat, of the central and peripheral nervous system, 243
Glucocorticoid(s)
analysis of, signalling by gene targeting, 111

-induced thymocyte apoptosis: protease-dependent activation of cell shrinkage and DNA degradation, 207
novel mechanism of action for NUR77 and antagonism by, 59
receptor(s)
function and cell cycle dependence of, phosphorylation, 91
regulation of gene expression by, hormones in the brain and spinal cord, 253

Hormonal signalling
the peroxisome proliferator-activated receptors at the cross-road of diet and, 65
11β-Hydroxysteroid dehydrogenase
role of, in steroid hormone specificity, 311

Interleukin
regulation of sex steroid formation by, -4 and, -6 in breast cancer cells, 151

NUR77
novel mechanism of action for, and antagonism by glucocorticoids, 59

LHRH-analogues
effects of, on mitogenic signal transduction in cancer cells, 199

Progestins
and breast cancer, 225
and coronary artery reactivity in atherosclerotic monkeys, 219
Proliferator-activated receptor(s)
at the cross-road of diet and hormonal signalling, 65
Prostate cancer cells
androgens and the control of lipid metabolism in human, 191

Receptor(s)
androgen(s)
N-terminal sequences of the human, in DNA binding and transrepressing functions, 117
estrogen(s)
binding, isolation and characterization of, in non-reproductive organs, 3
-mediated inhibition of cancer cell invasion and motility, 163
the multiple untranslated first exons and promoters system of the, gene in the brain and peripheral tissues of the rat and monkey, 281
the role of phosphorylation in human, function, 101
glucocorticoid(s)
function and cell cycle-dependence of, phosphorylation, 91
hormone(s)
steroid, in the brain, 273
nuclear
intranuclear trafficking and gene targeting by members of the steroid-, superfamily, 125
TIF1α: a possible link between KRAB zinc finger proteins and, 43
steroid(s)
and steroid action in rat glial cells of the central and peripheral nervous system, 243
in the brain, 273
molecular chaperones and subcellular trafficking of, 51
superfamily: intranuclear trafficking and gene targeting by members of, 125
thyroid
X-ray crystallographic and functional studies of, 133
5α-Reductase
expression and modes of control of, in the central nervous system, 295

Steroid(s)
receptor(s)
and steroid action in rat glial cells of the central and peripheral nervous system, 243
in the brain, 273
molecular chaperones and subcellular trafficking of, 51

superfamily: intranuclear trafficking and gene targeting by members of, 125
Steroid hormone specificity
role of 11β-hydroxysteroid dehydrogenase in, 311
Steroid target tissues
characterization and regulation of UDP-glucuronosyltransferases in, 301
Sulfatases
estrogen, effect of progestins, 225
Sulfotransferases
estrogen, effect of progestins, 225

Testosterone
modulation of serum, and autonomic function through stimulation of the male human vomeronasal organ with pregna-4,20-diene-3,6-dione, 237
Thyroid hormone
receptor(s)
X-ray crystallographic and functional studies of, 133
TIF1α
a possible link between KRAB zinc finger proteins and nuclear receptors, 43

UDP-glucuronosyltransferases
characterization and regulation of, in steroid target tissues, 301

Vomeronasal organ
modulation of serum testosterone and autonomic function through stimulation of the male human, with pregna-4,20-diene-3,6-dione, 237

Zinc finger proteins
TIF1α: a possible link between KRAB, and nuclear receptors, 43
